

Panel de Control táctil inteligente para el hogar, pantalla de 10 pulgadas con Wifi, novedad de 2024

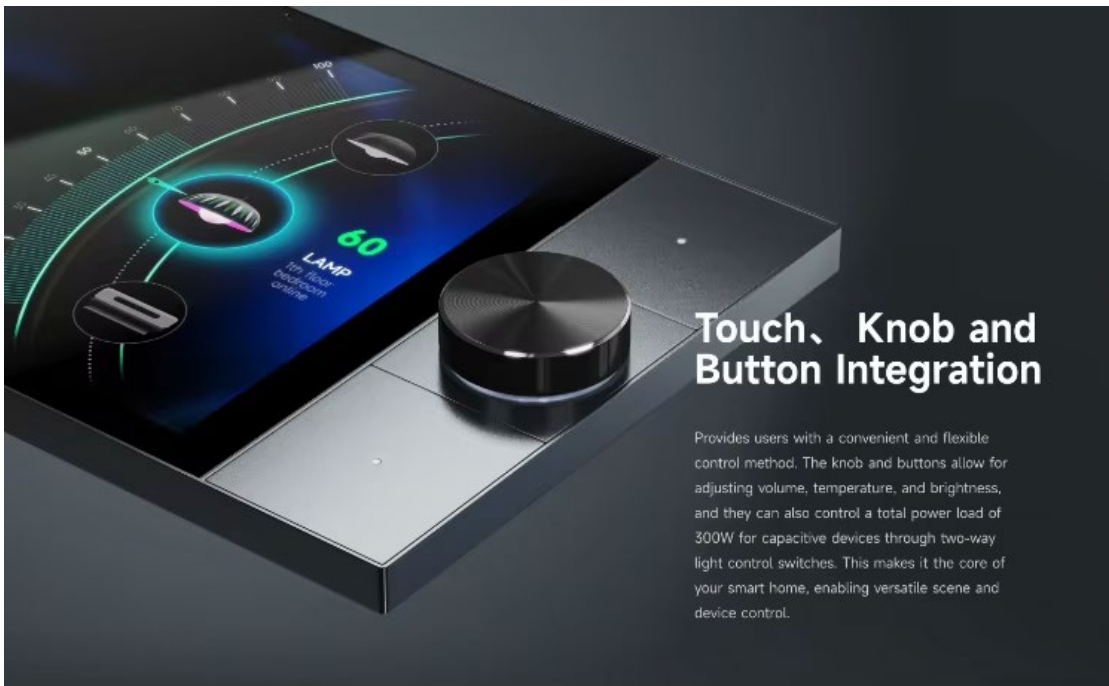

Artículo	Valor
Lugar de origen	China
Provincias	Shaanxi
Nombre de marca	Xike
Número de modelo	S10
Tipo de pantalla	IPS
Resolución de pantalla	1280x800
Característica	Wifi, reproducción de MP3, pantalla táctil, flash integrado, control de APP, control remoto de APP, SDK disponible, 5G
Sistema operativo	Android
Cámara	Sin Cámara
Uso	Universal
Pantalla	≥5.0"
Diseño	Voltear
Controlar la aplicación	Controlar la aplicación
Tipo de producto	Interruptor inteligente
Aplicación	Hotel, Comercial, Hogar
Fuente de alimentación	USB, eléctrico
Molde privado	Sí
Método de control	Toque/botón/tecla
Sistema de soporte	Android \ IOS APP Control remoto
Suministro eléctrico	100 ~ 240V AC

CPU	1,5G de cuatro núcleos,
Interfaz	RS485, relé bidireccional (L1, L2) Interfaz cero FireWire IL, N]
Pantalla	10,1 pulgadas HoIPS LCD 1280*800
Red	Ethernet inalámbrico 5G + 2.4G1 0/100M
Dimereiones	289mm * 156mm * 11mm
Certificación	CCC
Sistema operativo	Android

Especificación

**Detalles**

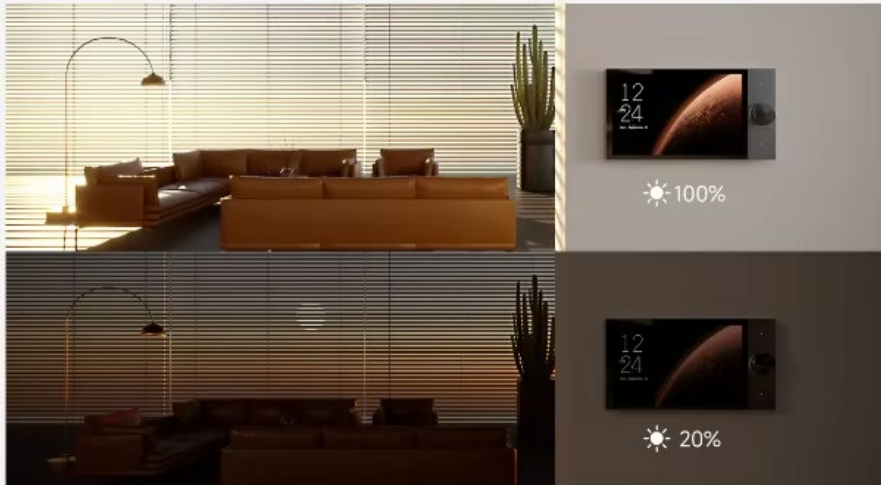

Nombre de la marca	XMSJ	Origen	CN(Origen)
Place of Origin	Shaanxi, China	Brand Name	xike
Model Number	S10	Display Type	IPS

Camera	No Camera	Use	Universal
Screen	≥5.0"	Design	Flip
APP Control	APP Control	Product Type	Smart Switch
Application	Hotel, Commercial, Home	Power Source	usb, Electric
Private Mold	Yes	Control method	Touch/knob/key
Support System	Android \ IOS APP Remote Control	Power Supply	100~240V AC
CPU	Cortex-A53 quad-core 1.5G	Interace	RS485, two-way relay (L1, L2]zero firewire interface [L, N]
Display	10.1 inch HoIPS LCD 1280*800	Network	Wireless 5G+2.4G10/100M Ethernet
Dimereions	289mm*156mm*11mm	Certification	CCC

## The Exclusive HomeOS6.0 System

From the perspective of the use of the whole family and the perspective of space, the pursuit of practical and artistic balance, so that people of every age can easily operate.

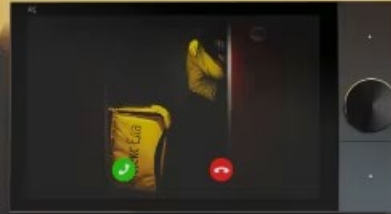

## Intelligent Dimming Function

Can be automatically adjusted when the light is too bright or too dark to maintain the best visual comfort and brightness, effectively protect eye health. At the same time, intelligent dimming can also significantly reduce power consumption and achieve better energy saving effects. This intelligent brightness adjustment function provides users with a more convenient, healthy and environmentally friendly experience.

The details of the S10 are simply too intelligent

### Intelligent Security Function

Online guard family security, support Tuya intelligent visual doorbell, become the goalkeeper of the family.

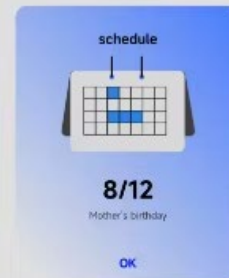

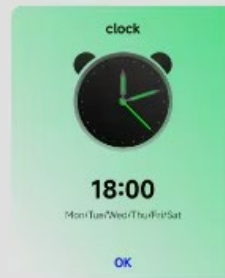

### 10.1 Inch IPS Screen

You can show common scenes and equipment at a glance, convenient for your operation.

### Alarm Clock & Schedule Reminder Function

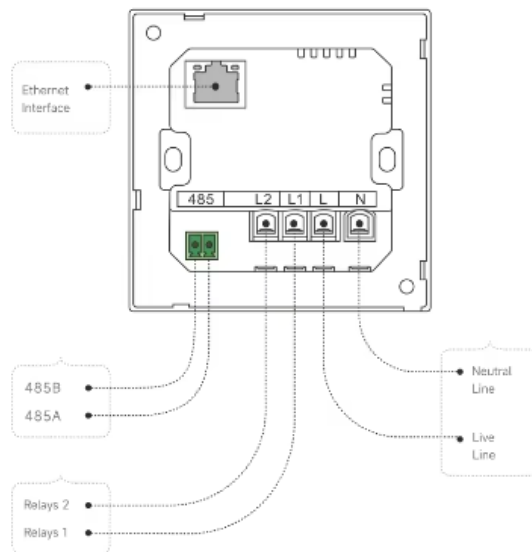

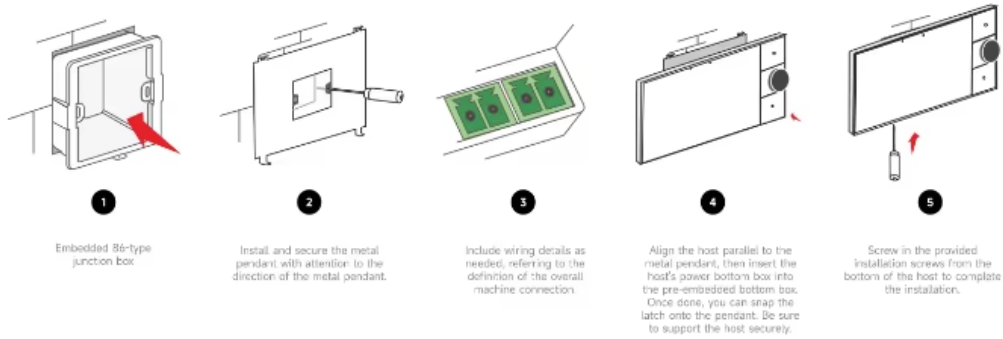

provide intimate services for the elderly at home to help them better manage their time.

### A Variety Of Networks And Interfaces

The product also supports Type-C interfaces and 5GHz and 2.4GHz networks, providing you with faster network connections and more stable signal transmission.

## Installation instructions

## Complete Machine Wiring Definitions

**⚠**  
Do not connect high-voltage power to the 485 interface
